

# Weas Engineering

## Webinar on *Boiler Pretreatment: Softeners, Reverse Osmosis, Carbon Filters, and Dealkalizers*

### Who should attend:

- Facility Managers, Design Engineers, Boiler Operators, anyone considering designing, upgrading or optimizing a boiler plant.

### Who is presenting:

- Chuck Bjork, Weas Engineering Equipment Support Lead and Certified Water Technologist

### What material will be covered:

- Introduction to water softening, how to troubleshoot, sizing tips, Water Safety ramifications.
- Reverse osmosis: design selection, operation, and optimization.
- Carbon filters: pros and cons versus using bisulfite for dechlorination
- Dealkalizers: when to consider instead of RO.

### What does it cost?

- No charge – it is an investment of your time only.

### When is the webinar?

- **Wednesday, December 9<sup>th</sup>, 2020 starting at 1 pm EST and lasting for 60-90 minutes.**

### Where do I register?

- Feel free to register for the webinar directly on our website: [www.WeasEngineering.com](http://www.WeasEngineering.com)
- Or fill out the registration form below and email it to [seminars@weasengineering.com](mailto:seminars@weasengineering.com)

### How do I watch the webinar?

- We will send out a registration confirmation email with a link to the Webinar; please make sure you double check your email address when you register on our website or on your Registration Form!
